L Remarks:

Called to a fire by the train tracks. E-3, B-3, B-30 and M-3 arrived and advised the fire was running along the RR tracks in thick brush and trees torching. Wind was blowing from the North at about 5 MPH. E-3 pulled a cross lay and bumper line and started knocking the fire down on the north side. B-3 used its hose reel and started knocking fire down on the south side. Command advised BC-1 that they needed additional units on the fire. BC-1 had B-2, T-1, and T-6 paged out. BC-1 arrived on scene and assumed command. BC-1 made Captain 3 south and B-30 as north. B-2 arrived on scene and had personnel work on the north end of fire with B-30. T-1 arrived and had firefighter work on north end of fire with B-30 and T-6 went to the north side as well. B-30 started cutting hand line around the fire and surrounded fire with a progressive hose lay to get control. South side of fire was burning in a cottonwood tree and they used water to put the fire out on the south side. Fire was controlled at 16:44:55. Fire investigators Strobel and Stillwaugh arrived on scene and started there investigation. As they were investigating the crews started mopping up the fire all the way into the black. After mop up units got there apparatus back in service and all units were clear.

NFIRS-1S Supplemental

A

06770	CO	04	02	2021		21DF-1309	0
FDID	State	Month	Day	Year	Station	Number	Exposure

Primary Narrative:

Called to a fire by the train tracks. E-3, B-3, B-30 and M-3 arrived and advised the fire was running along the RR tracks in thick brush and trees torching. Wind was blowing from the North at about 5 MPH. E-3 pulled a cross lay and bumper line and started knocking the fire down on the north side. B-3 used its hose reel and started knocking fire down on the south side. Command advised BC-1 that they needed additional units on the fire. BC-1 had B-2, T-1, and T-6 paged out. BC-1 arrived on scene and assumed command. BC-1 made Captain 3 south and B-30 as north. B-2 arrived on scene and had personnel work on the north end of fire with B-30. T-1 arrived and had firefighter work on north end of fire with B-30 and T-6 went to the north side as well. B-30 started cutting hand line around the fire and surrounded fire with a progressive hose lay to get control. South side of fire was burning in a cottonwood tree and they used water to put the fire out on the south side. Fire was controlled at 16:44:55. Fire investigators Strobel and Stillwaugh arrived on scene and started there investigation. As they were investigating the crews started mopping up the fire all the way into the black. After mop up units got there apparatus back in service and all units were clear.

Randy Baker
